

Practical Hydraulic Formulae for the Distribution of Water Through Long Pipes; Also Notes on Water Supply Engineering

Filesize: 7.29 MB

Reviews

This published pdf is fantastic. It really is rally fascinating throgh studying time period. I am just very happy to inform you that this is actually the greatest publication i actually have read within my own lifestyle and could be he best ebook for actually.

(Noemie Hyatt)

PRACTICAL HYDRAULIC FORMULAE FOR THE DISTRIBUTION OF WATER THROUGH LONG PIPES; ALSO NOTES ON WATER SUPPLY ENGINEERING

DOWNLOAD

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1894 Excerpt: .the hydraulic grade line. Obviously, a vertical pipe discharging downward is a special case of such coincidence. Second.--If the water (Fig. 13), in its passage from the greater to the smaller pipe, passes through an opening in a thin diaphragm, Fig. 13. as in the case of a partially opened stop-cock, we have: $v_i s_i h_i = v_o s_o h_o$ in which V is the velocity in B , S the area of cross-section of B , and S the area of the opening in the diaphragm. Third.--When the flow is from one pipe to another of larger in which $V =$ velocity in small pipe, and $V =$ velocity in larger one. When the water passes from a pipe into a reservoir, as in the case lately considered, V becomes zero, and we have, as already established in that case: $r f t =$ to Another loss of head is that due to branches (Fig. 14). In Fig. 14. this case the water flowing from A , with a velocity V , is split at the junction, part passing on toward B , with a reduced velocity V , and part entering the branch and flowing toward C , with the velocity V . The loss of head occasioned by perturbations of the water at the junction has not been satisfactorily investigated. When the branch leaves the main at a right angle, this loss, as determined by a few incomplete experiments, is: $3 V h = V$ being the velocity in the branch. We have...
